Returns and Customer Care -- Policy Bulletin

POLICY BULLETIN 2026-03

Reference: POL-2026-03

Issued: 2 March 2026

Effective: 9 March 2026

Applies to: all stores, contact centre and online returns

Issued by: Delia Marchetti, Director of Returns Policy

1. PURPOSE

Policy Bulletin 2026-03 amends the Return Policy Manual 2025. Opened electronics accounted for 61% of refund value and 74% of confirmed abuse cases in the 2025 financial year.

Provision 2.4 of the Return Policy Manual 2025, the Electronics opened-returns provision, is the one under which almost all of that value left the business.

2. PROVISION WITHDRAWN

Policy Bulletin 2026-03 supersedes Provision 2.4 of the Return Policy Manual 2025, the Electronics opened-returns provision. That provision allowed an opened electronics item to be returned within a 14-day window from the purchase date subject to a 15% restocking fee. It is withdrawn in full and may not be relied on for any return accepted on or after 9 March 2026.

The unopened Electronics provision is unchanged. A sealed item in original packaging is still refunded in full within 30 days with no restocking fee.

3. PROVISION SUBSTITUTED

An opened electronics item is not returnable except where the item is faulty. Where a fault is established the return is handled under Section 5, Defective Items, at no restocking fee. Where an opened electronics item is accepted on any other ground, the return requires store manager approval recorded on the return record, and a restocking fee of 25% applies. The 25% fee may not be waived at desk level.

4. FRAUD PREVENTION UNAFFECTED

Section 6, Fraud Prevention, is unaffected by Policy Bulletin 2026-03 and remains in force in its entirety.

Delia Marchetti, Director of Returns Policy, AnyCorp Retail
