Credit Risk and Compliance

CREDIT COMMITTEE MEMORANDUM

Facility: FAC-2026-0512

Date: 24 February 2026

Prepared by: Ms Naledi Okoro, Head of Credit Risk

1. PROPOSED EXPOSURE

Solenne Freight Logistics BV has requested a EUR 150,000,000 revolving facility to fund working capital growth. The borrower is a road and rail freight operator with contracts across the Benelux region.

2. OWNERSHIP

Corvus Shipping Group Ltd controls Solenne Freight Logistics BV, holding 83 per cent of its issued share capital.

Ridgeway Capital Partners NV controls Corvus Shipping Group Ltd, holding 58 per cent of its issued share capital and appointing a majority of its board.

Memorandum · continued

3. EXISTING BOOK

The bank already has EUR 210,000,000 of drawn exposure to Halcyon Maritime Holdings SA under facility FAC-2023-0144. That facility is performing and was last reviewed in January 2026.

Halcyon Maritime Holdings SA is not otherwise connected to this proposal for the purposes of this memorandum, which considers the Solenne facility on its own terms.

Memorandum · continued

4. SECTOR CONTEXT

European road and rail freight volumes grew 4 per cent in 2025 despite continued fuel cost volatility. Solenne's contract mix is weighted toward retail distribution, which the committee views as lower cyclical risk than industrial freight.

5. PRICING

Margin of 210 basis points over EURIBOR, arrangement fee of 60 basis points, commitment fee of 35 basis points on the undrawn amount.

6. RECOMMENDATION

Approve, subject to the group limit being recalculated on a connected-client basis before first drawdown if further ownership links are identified above Corvus Shipping Group Ltd. The individual limits are each within policy; the group position has not been aggregated.

Ms Naledi Okoro, Head of Credit Risk
