

ST OSWALD'S TEACHING HOSPITAL

Inpatient Prescription Chart

Encounter: ENC-2026-0451

Patient: Mr Tobias Renner, hospital number 88-40217

Date: 4 February 2026

1. REGULAR MEDICATION

Dr Ravi Nadkarni prescribed Almodan 500mg three times daily for seven days, to treat the community acquired pneumonia. First dose given at 08:15 on 4 February 2026.

Metformin 1g twice daily, continued from the patient's own supply. Ramipril 5mg once daily, continued.

2. AS REQUIRED

Paracetamol 1g up to four times daily for fever. Dr Ravi Nadkarni prescribed Paracetamol on the same round.

3. NOTE FROM PHARMACY

The admission note records an allergy to a penicillin brand. The prescribing entry here uses a different brand name and the chart carries no cross-check. Pharmacy has asked for confirmation before the second dose.

Dr Ravi Nadkarni, Specialty Registrar
